## HURRICANE RUINS GRAND TURK CITY

Grand Turk, Turks Islands, B. W. I.,  
Sept. 12.—A hurricane of great fury swept over Turks Islands Thursday night and Friday morning, and at daybreak the town of Grand Turk was devastated. A number of lives have been lost, but just how many cannot yet be said.

Grave anxiety is felt for the safety of Dr. T. R. Robertson, district commissioner of Calcasieu, who was making a tour of the islands when the storm broke.  
The hurricane reached here at nine o'clock at night, the wind blowing from the north-northwest. At four o'clock in the morning the wind had reached a velocity of nearly 100 miles an hour and was blowing from the northwest.

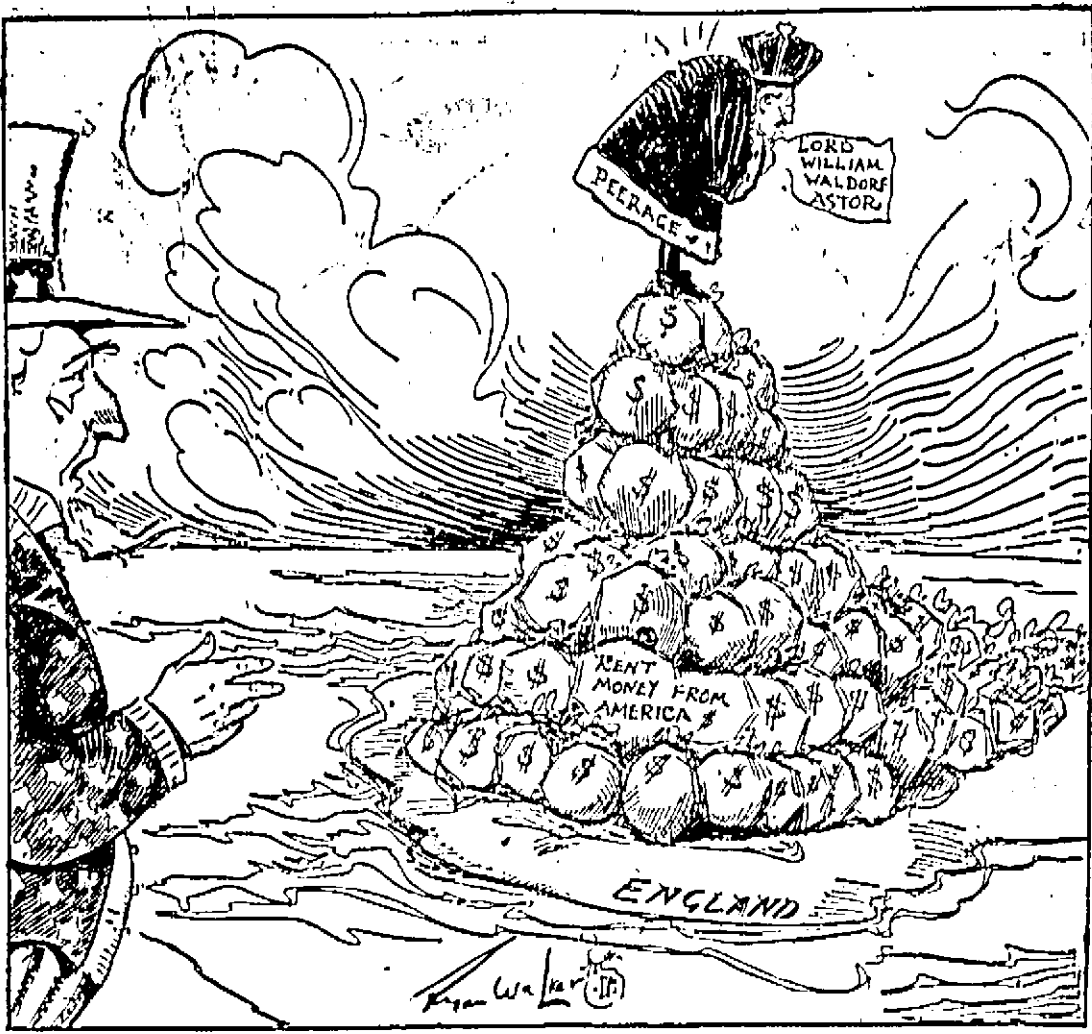

Houses Wrecked; Vessels Sunk.  
Much damage has been done to property here and the streets of Grand Turk are a mass of wreckage. Trees have been uprooted, portions of buildings blown away and many houses have been partially wrecked.  
The Hattien sleep Telegraph, which had taken shelter at Hawks Nest, founded with all hands. The schooner Dan Leon, belonging to the East Calcasieu Fiber Company, broke away from her anchorage and has not been seen since. All the salt lights which were moored at the riding ground and the Hawks Nest are missing.

## SOMETHING ABOUT THE ISLANDS.

The Turks and Calcasieu Islands lie between 21 degrees and 22 degrees north latitude and 71 degrees and 72 degrees 30 minutes west longitude. Their area is 169 square miles. The most important island, Grand Turk, is 6½ miles long and two miles broad. According to the census of 1901 Grand Turk contains 1,751 inhabitants, being one-third of the total population. Cockburn harbor, in South Calcasieu, immediately opposite Grand Turk, is the principal settlement in the Calcasieu group.

Grand Turk is the capital of the group and the residence of the commissioner. The town is neat and clean and the inhabitants, in spite of the fact that they complain of business depression, appear to be well-to-do. There are in the town several companies, various stores, a good market place and a public library and reading room. There are also an Episcopal church, a fairly commodious court-house, a small prison and a school house.

The staple export is coarse salt. The islands constitute a dependency of Jamaica.

## TRIAL OF EBERHARD BEGINS ON MONDAY

Italian Charged With Murder of His  
Aunt Will Plead Insanity  
as Defense.

[SPECIAL TO THE GAZETTE.]  
Hickman, N. J., Sept. 12.—Augustus Eberhard, the young grocer's clerk who is charged with the murder of his aunt, Mrs. Otilia Eberhard, whom he lured to a lonely spot at Rochelle Park, on July 18 last, and after killing her, robbed the body of \$2,250, will be placed on trial here next week. The case will be called Monday and it is expected the trial will proceed without delay.

The cold-blooded character of the murder caused the crime to be widely discussed throughout the country and the trial will be followed with close interest. The murdered woman had but recently arrived in this country from Germany. According to the story told by young Eberhard he had persuaded his aunt to turn her possessions into cash and come to America in order that he might marry her daughter. Upon their arrival in New York he obtained rooms for them and then suggested a trip across the river into New Jersey. A blinding storm came up while they were walking along the railroad tracks on the New Jersey side, and this added the designs of the murderer. As the two unsuspecting women were plodding along in front of him, he drew his revolver, took careful aim and fired. Mrs. Eberhard fell at the first shot, but to make sure of her death the assassin fired another shot into her body as it lay on the tracks. Then he went in pursuit of his cousin and tried to kill her. She ran down the tracks and escaped, while the murdered died from the scene of his crime. It was more than a week before young Eberhard was found. In his confessions he stated that during that week he had traveled as far west as Chicago, but had been irresistibly attracted again to the scene of his crime. When found he was suffering from a slight bullet wound, which he had inflicted upon himself to give strength to a story he had concocted to the effect that he and his aunt had been attacked by Italians while walking along the railroad tracks. But a more serious confession. Nearly all of the money of his aunt was found where he said he had buried it.

Insanely undoubtedly will be the defense of the young self-confessed murderer when he is placed on trial. His father, it is said, will testify that insanity is hereditary in his family and that the sister of young Eberhard is now confined in an insane asylum.

The local authorities and the men guarding Eberhard say they can see no traces of insanity. Nevertheless, it is probable that a commission may be appointed to examine the prisoner's mental condition.

## PIONEER STEEL MAN SHOT THROUGH HEAD

Andrew Kloman, Former Partner of  
Carnegie, Found on Grand Boul-  
evard in Pittsburgh.

[BY ASSOCIATED PRESS.]  
Pittsburgh, Pa., Sept. 12.—Andrew Kloman, a grandson of Andrew Carnegie, who was a partner of Andrew Carnegie in the pioneer iron and steel business, was found shot through the head on Grand boulevard early today. He is in a critical condition. The police are puzzled over the mysterious shooting and are not ready to accept the robbery theory advanced by Kloman's relatives.

Kloman died this afternoon. The police believe Kloman was shot because of complications growing out of an alleged marriage.

## NEWS FORECAST OF THE COMING WEEK

Republicans and Democrats Will Hold  
State Conventions in New  
York State.

[SPECIAL TO THE GAZETTE.]  
Washington, D. C., Sept. 12.—The coming week promises to be well filled with political events of interest and importance. During the early part of the week public attention will be centered on the state of New York, where the republicans and democrats will both hold their state conventions for the nomination of candidates for governor and other officers. The multiplicity of democratic possibilities for the governorship and the bitter fight in the republican ranks over the proposed renomination of Governor Hughes give promise of lively gatherings at Rochester and Saratoga Springs, where the conventions of the democrats and the republicans, respectively, are to meet.

Maine will be in the limelight Monday, when the state election will be held for governor, representatives in congress and minor officers. This being a presidential year, the efforts of the campaign managers to make an impressive showing having been exerted in assigning speakers of national prominence to lend their aid in the Pine Tree State, the returns will be accompanied with interest. Arkansas also holds a state election on Monday, but as the contests were all settled in the democratic primary held last spring the voting is of a purely perfunctory character.

According to present plans Judge Taft will remain in Cincinnati during the week, though he is in receipt of numerous invitations to speak in various cities in Ohio, Indiana and neighboring states. Mr. Bryan is scheduled to speak Monday at Baltimore, on Tuesday at Washington, on Wednesday at Rochester, on Thursday and Friday in New York city, on Saturday in Providence, returning to spend Sunday in New York city.

Of lesser interest in the field of politics will be the republican state nominating convention in Montana and New Hampshire and the democratic state convention in Connecticut. Republicans of New England are to unite in holding a monster barbecue next Tuesday at Point of Pines, near Boston. The governors of several states are to attend and speakers of national prominence will be heard in support of the national ticket.

The Irish-American residents of New York and vicinity are preparing a monster welcome for John Redmond and Joseph Devlin, members of parliament and leaders in Ireland's struggle for independence, when they arrive on the Oceanic next Wednesday. The Irish leaders will be heard at public meetings in New York, Philadelphia, Boston, Chicago and other large cities.

The large conventions scheduled for the week include the gatherings of the National Retail Druggists' Association at Atlantic City, the American Association of Traveling Passenger Agents at Seattle, the Brotherhood of Locomotive Firemen and Enginemen at Columbus, Ohio, the National Industrial Trade League at St. Louis, the United Brotherhood of Carpenters and Joiners at Salt Lake City, the United Association of Journeymen Plumbers, Gas Fitters, Steam Fitters and Steam Fitters' Helpers at Indianapolis, and the Canadian Manufacturers' Association at Montreal.

## MAINE ELECTION WILL BE WATCHED BY POLITICIANS

Not As Good An Indicator As The State Of  
Vermont, But Will Show Trend.

[SPECIAL TO THE GAZETTE.]

New York, Sept. 12.—The outcome of Monday's election in Maine is awaited with considerable interest at the headquarters of the republican and democratic national committees in this city. As in the case of Vermont the result of the September election in Maine in the presidential year is regarded as a straw to show which way the wind is blowing for the big contest in November, though the experience in past years has shown that the indication is not always a trustworthy one. It is conceded that the republican party will win, but if the plurality is reduced it will give great satisfaction to the democratic managers. As state politicians on the republican side do not hesitate to admit among themselves that the plurality in the Pine Tree state is very likely to be reduced from the big figures that have been rolled up in years gone by. If such is the case, they explain, it will be due entirely to the fact that the contest is fought out on state issues and without regard to the questions that figure in the national campaign for the presidency. For this reason Vermont is a much more reliable barometer by which to forecast the November results. In Maine there are several state issues around which the election revolves, while in Vermont the local issues at stake are not nearly so prominent.

For purposes of comparison it is interesting to note the record of the Maine elections for some years past. In 1880 the democratic-greenback fusion party carried the state in September, while the republicans elected their president in November. In 1884 the republicans carried Maine in September, but probably to the fact that James G. Blaine was running for the presidency, but in November Cleveland was elected president.

In 1892 Maine was republican by only 12,532 in September, seemingly foreshadowing the election of Cleveland to the presidency in November. Since 1892 the republican majorities in Maine, in September, have been very large, ranging from 48,216 in 1896 and 31,132 in 1900 to 25,500 in 1904. The elections since 1888 seem to make the state fairly barometric in character, and yet there are no many exceptions that its fall elections are not now watched with as much general interest as those of Vermont.

Election on Monday.  
Augusta, Me., Sept. 12.—The elections in Maine, including the choice of representatives in congress, will be held Monday. The campaign closes today with round meetings in every nook and corner of the state. There is admittedly some anxiety among the republicans over the outcome, and corresponding pleasant expectations on the part of the democrats. No republican, however, is willing to admit that there is the slightest chance for the democrats to carry the state. From their viewpoint it is only a question of a large or small republican plurality.

The republican nominee for governor is Bert M. Fernald of West Poland, a wealthy canner and businessman. He has served in both branches of the legislature with distinction and is one of the most popular members of his party.  
The democrats have nominated as their candidate for governor Oswald Gardner of Rockland, for several years head of the State Grange. Mr. Gardner is particularly popular among the farmers. His nomination is considered a wise move on the part of the democrats, for the record of past years has shown their weakness to be in the rural districts. Mr. Gardner is the first farmer who has ever been named for the governorship.

The one big issue of the state campaign is prohibition. Shall the prohibitory amendment, which has been in force since 1883, be resubmitted to the voters? The republicans say no, the democrats say yes. The republicans argue that the temperance problem was taken out of politics when the amendment was adopted, that the state has been unprecedently prosperous during the outlawry of the saloon, and that there is no good reason for allowing the electorate to pass on the question again. The democrats say that there is a large amount of drunkenness in Maine, that the savings bank deposits make a poor showing in comparison with those of other states, that prohibition is a mere political football and that no harm can come from resubmission, because if the state is still in favor of prohibition it will have the opportunity to say so again at the polls.

One other local issue of considerable interest is that of state appropriations. The democrats complain that the expense of running the state under republican rule has more than doubled in the past few years. The republicans reply that this expense of appropriation account is justified. The only congressional fight of much interest is that in the Third district, represented by "Burrhead" C. Burleigh, who has been in the house since the thirty-fifth congress. In the last election his plurality was but 1,800 and this year the democrats have entered their efforts upon his defeat.

## WAR IS STARTED ON CIGAR. FRAUDS

Sale of Bogus "Key West" Brands  
Enjoined as the First Step in  
a General Campaign.

[BY ASSOCIATED PRESS.]  
Philadelphia, Pa., Sept. 12.—With the entering of a sweeping injunction in the United States Circuit Court, restraining the use of the name "Key West" in connection with cigars not made in that city, has begun a general campaign against the practice of misbranding cigars. The injunction was obtained by the Key West Cigar Manufacturers' Association, which is determined to stop the practice of calling cigars "Key West" unless they are in fact made in Key West, Florida.

The injunction just issued is very broad in its terms and restrains the defendant "from in any way, manner or form, directly or indirectly, whether by means of labels, bands, markings on boxes, word of mouth, or otherwise, the use of the words 'Key West' and any and all colorable imitations thereof, in connection with the sale or offering for sale of cigars which are not in truth and in fact made in Key West, Florida; and from passing off or attempting to pass off cigars not in truth and in fact made in Key West, Florida, as and for Key West cigars."

Mr. S. R. Perry, of the law firm of Stewart and Stewart, 69 Wall Street, New York, counsel for the Key West manufacturers in the Philadelphia suit, said today:

"The defendants in this case are only one of many manufacturers and dealers who make a practice of misbranding cigars and of substituting words of all kinds for the Key West, made product. Owing to climatic, atmospheric and other favoring conditions, Key West, Florida, has exceptional advantages for the manufacture of cigars, and the output of the genuine Key West product is now about 100,000,000 cigars a year. Many times that number of cigars are, however, sold as 'Key West,' and it is this fraud that our clients intend to stop. Smokers can partly protect themselves by observing on the bottom of the box the name of the state in which their cigars are made. If not made in a Florida factory a cigar evidently cannot be a 'Key West.'"

Clark had been in Clinton yesterday and had been drinking heavily while there. It is not known what train struck him as several had passed along the track since he had last been seen in Clinton.  
The freight train is due in Clinton about eleven o'clock.

## LABORERS STRUCK FOR HIGHER PAY THURSDAY

Men Working For the People's Construction Company Ask For  
Raise.

Asking for a raise of twenty-five cents a day and refusing to work for \$1.75, fifteen laborers, employed by the People's Construction company in their work on the main outlet sewer, struck on Thursday and were discharged, other men being obtained to fill their places.

Superintendent Vanderstock, who has charge of the work here said that it was the intention of the company to employ local labor and that they had offered \$1.75 a day when they could get labor for \$1.50. As they have refused to work for the price offered the company will get foreign labor much cheaper.

Newsboy Saved \$1,500: Richard Jones, a local newsboy, has earned and saved \$1,500 selling papers during the past few years. His work has all been done after school. In addition to his accomplishments as a financier he is a good student of Latin.

## TAFT WILL TOUR THE MIDDLE WEST

HIS FIRST CAMPAIGN TRIP IS BEING ARRANGED.

TWO OTHERS ARE PLANNED

Bryan Welcomed by Big Crowds at Wheeling After a Day of Speechmaking in Ohio Towns.

Cheltenham, Sept. 12.—Candidate Taft's first speechmaking trip will be through the west. A. I. Vorys left here for New York Friday to personally represent the candidate before the national committee in arranging this trip, which will take in at least the states of Missouri, Kansas, Nebraska, Iowa, Illinois and Indiana.

Two other trips are being planned, one through the eastern states and another through a number of southern states. These, however, will not be worked out until the western journey has been arranged.

Judge Taft and National Chairman Hitebeck had an extended conference over the long distance telephone, the result of which was the hurried departure of Mr. Vorys for New York.

"Mr. Vorys, having been with me for some time, knows exactly my ideas concerning this trip," Judge Taft explained, "and it was regarded as more satisfactory that he should go to New York and take up the details of the trip with the committee. He will bring back with him, probably Sunday, the result of the committee's decision."

**Amusing Letter from Shaw.**  
This characteristic letter from former Secretary of the Treasury Leslie M. Shaw, was received by Judge Taft. "The committee in charge of the Republican state convention of Illinois, being in extremes, asked Shaw to make a few remarks. Of course, he consented, and while you will have neither the time nor the appetite therefore, he is going to stick into the envelope that bears this message of love and good will, a transcript of some of his mental gyrations preliminary to the task assigned."

"I wish I could run down to see you, but there is nothing I can say except to express my abiding good wishes and a large measure of confidence in final results."

"If you should meet Mrs. Taft during the progress of the campaign, give her my kindest regards, and say to her that Shaw thinks that in less than 12 months from now and after this day and date, she will be the best beloved woman in the land. Affectionately yours, L. M. Shaw."

**Bryan in West Virginia.**  
Wheeling, W. Va., Sept. 12.—William Jennings Bryan Friday afternoon and night was West Virginia's guest. A royal welcome was accorded him as his private car "Olivette," containing himself and party and a big reception committee crossed the Ohio river and entered this city.

Speaking at night to a multitude of persons Mr. Bryan pointed out the differences in the two platforms and made a plea for Democratic support. He made frequent reference to Mr. Taft and told his audience that the Republican candidate was conducting his campaign on a platform so obnoxious to him that he was forced to continually patch it up with amendments of his own. Much stress was laid on the labor and anti-injunction planks of the Democratic platform.

**Talks to Ohio Crowds.**  
The visit to Wheeling followed an eventful day in Ohio. From the time the Democratic candidate left Columbus, early in the morning, until he crossed the Ohio river into West Virginia, the crowds which gathered along the line of travel, made insistent demands for his appearance.

At Steubenville a large crowd gathered, and from a railroad truck beside the track, while his car was being shifted to another train, Mr. Bryan addressed them. As he had done at other points in the state, he hurled shafts of ridicule at Mr. Taft, whose speeches, he declared, had darkened rather than illumined the subjects which compose the Republican platform.

**Huge Cement Plant Burns.**  
Louisville, Ky., Sept. 12.—The plant of the Cosmopolitan Cement Company, located at Cosmopolis, 17 miles southwest of Louisville, burned Friday night with a loss estimated at \$2,000,000. The fire was discovered at ten o'clock near the coal bins in the furnace room and quickly spread to the other buildings of the immense plant.

**Daughter for Lieut. U. S. Grant.**  
Boston, Sept. 12.—A daughter was born Friday night to Lieut. U. S. Grant, Third, U. S. A., and Mrs. Grant, who is the daughter of Secretary of State Blinn Root. Lieut. Grant is attached to the United States engineering corps here and is living in Brookline.

**Bartender Kills Hold-Up Man.**  
Omaha, Neb., Sept. 12.—An unidentified man was shot and instantly killed Friday night in W. A. Atkins' saloon at 1120 Farnam street while attempting to hold up the bartender, P. W. Burns.

**Marie Studholme Married.**  
London, Sept. 12.—Marie Studholme, the English actress, was married secretly in a London registry office to Harold Borrett, son of Maj. Gen. Borrett.

**Pride Takes a Fall.**  
Pride went out on horseback and returned on foot.—Italian proverb.

Saginaw, Mich., Sept. 12.—Democratic National Committeeman E. O. Wood Friday announced that the vice-presidential candidate, John W. Kern of Indianapolis, has consented to address the Democratic state convention at Saginaw, October 1.

**Of Interest To Women.**  
To such women as are not seriously out of health but who have exacting duties to perform, either in the way of household cares or in social duties and functions, which seriously tax their strength, as well as nursing mothers, Dr. Pierce's Favorite Prescription has proved a most valuable supporting tonic and invigorating nervine. By its timely use, much nervous sickness and suffering may be avoided. The operating table and the surgeon's knife would be useless, when have to be employed if this most valuable woman's remedy were resorted to in good time. The "Favorite Prescription" has proven a great boon to expectant mothers by preparing the system for the coming of baby, thereby rendering childbirth safe, easy, and almost painless.

Bear in mind, please that Dr. Pierce's Favorite Prescription is not a secret or patent medicine, against which the most intelligent people are quite naturally averse, because of the uncertainty as to their composition and harmless character, but is a medicine of known composition, a full list of all its ingredients being printed, in plain English, on every bottle wrapper. An examination of this list of ingredients will disclose the fact that it is non-alcoholic in its composition, chemically pure, triple-refined glycerine taken in its make-up. In this connection it may not be out of place to state that the "Favorite Prescription" of Dr. Pierce is the only medicine put up for the cure of woman's peculiar weaknesses and ailments, and sold through druggists, all the ingredients of which have the unanimous endorsement of all the leading medical writers and teachers of all the several schools of practice, and that too as remedies for the ailments for which "Favorite Prescription" is recommended.

A little book of these endorsements will be sent to any address, post-paid, and absolutely free if you request same by postal card, or letter, of Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Get to the cause and you cure the disease. Easy to take as candy.

LITTLE JOURNEYS TO THE SUMMER HOMES OF FAMOUS MEN.

GOV. A. B. CUMMINS OF IOWA.

Des Moines, Iowa.—Gov. A. B. Cummins of Iowa, who has gained a national reputation because of his advocacy of progressive principles, including tariff revision, publicity of campaign funds, election of United States senators by direct vote, etc., is a great home man.

But he has no summer home, so to speak. His pleasant home in Des Moines, located on one of the most attractive drives of the city, serves well as a summer home. It is elaborately furnished and beautifully supplied with books. This is one of the attractions that keeps the governor at home during his vacation months. He is a student and reader and enjoys the library he has gathered.

Governor Cummins is not a great hunter or fisher. His sport has been exclusively hunting political game. He would rather make a speech and capture the favor of a few hundred voters than to shoot the biggest lion in Africa. His leisure moments are given to his home and his library. There isn't much of the politician about Governor Cummins.

Cummins. He doesn't admire sleeping in tents or claphorn houses and struggle against mosquitoes. He has a beautiful home and it is there he delights in spending his summer months.

This summer home has been the scene of many delightful social affairs. Besides being a summer home for the family, it becomes a social center in the mid-winter season. During legislative sessions Mrs. Cummins has entertained every week with an open house. There are many invited affairs also at the Cummins home.

### GARY LAUDS ROOSEVELT TELLS BRITISH PRESIDENT ISN'T ENEMY OF CAPITAL.

Head of Steel Trust is Banquetted in London by the English Iron Men.

London, Sept. 12.—Elbert H. Gary, chairman of the board of directors of the United States Steel corporation, eulogized President Roosevelt and spoke in favor of co-operation and a better understanding among the steel manufacturers of the world at a dinner given in his honor at the Reform club Friday night by Sir Hugh Hall, president of the Iron and Steel Institute and the members of the council of the Institute.

In his speech Mr. Gary, after paying a tribute to the British government and King Edward, said:

"Other nations are today equally fortunate. May I digress for a moment to speak of our president, Mr. Roosevelt, who has been sometimes misunderstood, if not misrepresented? He is not an enemy of capital or of business."

ness probably. "The chief aim of that right conduct is the first essential of national health, but he also believes that material success and growth are necessary. He does not attack individuals as such, be they rich or poor, but opposes what he conceives to be wrong, whoever perpetrates it."

Speaking on the recent financial crisis in the United States, Mr. Gary said that in such times previously everyone sold his products wherever they might be and for whatever price he could obtain. An immediate and radical reduction in prices would have meant bankruptcy to a multitude of concerns, he declared, and the iron and steel business would have suffered most. This business in the United States, he added, was in the hands of men who could not be surpassed—intelligent, broad-minded, honest and sincere.

Uncle Allen.

"I see the government is going into the ship business," said Uncle Allen Sparrow. "Sooner or later the ship will get into politics, and then we'll have machine politicians and flying machine politicians."

Angler's Bitter Memories.

Although angling has been and still is one of the chief delights of my life, something bitter always arises when I think of my fishing experiences. Taught from my earliest years to handle a rod and throw a fly, it has, nevertheless, never been my good fortune to grasp a really big fish. On the other hand, some of the greatest duffers, so far as angling goes, I have ever known have "wiped my eye" time and again at salmon fishing. Only a year or two since I had a friend staying with me at Dupplin Castle, who, to the best of my belief, had never before handled a salmon rod or any kind of rod in his life. But almost at the first cast—if one could dignify the action by such a name—he rose, hooked and eventually grasped a 40-pounder. Another friend, also a most indifferent fisherman, killed, single-handed, a splendid fish that went all but 50 pounds. But I, who have given years to the game, have never seen my spring balance tally more than 31 pounds.

Buy it in Janesville.

### The Making of the Majestic Malleable Iron Ranges

The casting is first made of cast iron, then put on a truck and run into an annealing furnace for sixteen days and nights. The intense heat kept up for that length of time draws all the carbon (which makes cast iron so brittle) out of it, leaving it flexible, so that it will never warp or crack. It costs about twice as much to make malleable iron as cast; do you see why the majority of steel ranges have cast tops?

The malleable top is just one of the features of the Majestic.

Descendants of Massachusetts.

Two princesses, representatives of the only real American royalty, descendants of that Massachusetts word was law to 20 villages and 30,000 red men, are living in poverty on the shores of Lake Assawampsett, Massachusetts. They are Teweseleema and Wootenokannoko. An effort is being made to secure for these last of the royal blood of the Wampanoags a material recognition of their rights and of the services which their ancestor, the mighty sachem Massasoit, performed for the pioneers of New England. For without Massasoit's friendship and protection the struggling colonists would have been swept from the land.
